

About Breast Believe

The Breast Believe campaign, led by The Larry Fitzgerald Foundation (TLFF), aims to educate communities about early detection, prevention, symptoms, treatments, resources, and access surrounding a breast cancer diagnosis. Larry Fitzgerald is driven by his mother, Carol Fitzgerald, who passed away from breast cancer in 2003 and has made it his mission to provide funding opportunities, resources, and services for women, men, and families impacted by breast cancer. Learn more at www.thelarryfitzgeraldfoundation.org.

Our Purpose

We believe that awareness can alter the course of a person's life. Breast Believe is committed to providing resources to organizations and nonprofits prioritizing Breast Cancer Awareness, especially in historically underserved communities, not just in October but year-round. Access to organizations providing support, financial assistance, and advocacy is paramount. We believe the ability to connect with a community of people that understand and can assist someone in navigating their journey after a diagnosis is critical to one's mental and physical well-being as well as their survival.

If you or someone you know has been impacted by breast cancer and needs support, e-mail us at hello@thelarryfitzgeraldfoundation.org so that we can connect you with one of our Breast Believe partners to support you in your journey.
